## Integrity Is Not Negotiable.

Integrity is the keyword for sustainable business relationships. Reliability, predictability and trust are ethical values in business which Prevent considers to be non-negotiable.

Because we know that even one individual's misconduct can affect the integrity of the whole company, its competitive edge and prospects of success, integrity is top priority. This leitmotif dominates our thoughts and actions - regardless of the type of task and location. This applies in Germany and Central Europe as well as in East and South East Europe, in The Near and Middle East, in Asia and South America.
